

RE/PSHE

In RE, we will learn about living by rules and being fair and just. In PSHE, we will learn more about families and relationships.

Computing

Systems, networks and servers is where we begin our Year 6 computing journey. We will pay close attention to the role of communication, privacy and security.

French

In our first ever French lesson, we will use maps to locate the country and learn how to greet people.

Reading

In reading, we will be looking at a range of texts and focussing on fluency and comprehension skills.

Maths

In maths, we will be learning about place value and about numbers up to 10 million. We will then be learning about the four operations: addition, subtraction, division and multiplication.

Year 6 Autumn 1 Curriculum Map

Writing

We will be focussing on Leila and the Blue Fox by Kiran Milwood Hargrave and take part in a range of writing activities such as poetry, formal letters, diary entries and narratives. We will also study The Arrival by Shaun Tan where the writing opportunities will include character descriptions, playscripts and reports.

Humanities (History/Geography)

This half term, we will be learning about the events which led to World War I and their effects on British life, both short and long term. In geography, we will locate and explore the continent of South America, especially Peru, learning about its multiple climate zones.

P.E

One PE lesson per week, the children will continue to develop their fitness skills by taking part in circuit training. With the Aston Villa coach, they will further develop their football skills.

Art and Design Technology (DT)

To mark Remembrance Day later in the term, we will use technical knowledge of components and sewing to design wearable poppies. During art, we take our knowledge of drawing to the next level by using the Chiaroscuro technique to create tenebrism.

Music

The children will look at the song, Happy, by Pharrell Williams this half term. They will sing, play instruments and compose a simple melody.

Science

Year 6 will learn about animals including humans. We will find out about the circulatory system as well as how the heart works. We will also learn about the impact of exercise and lifestyle on our bodies.
